EXPERTISE

- node.js
- next.js
- react.js
- express
- mongo-DB
- redux
- zustand
- MVC
- HTML/CSS/Bootstrap
- tailwind CSS
- git
- typescript
- agile methodology

FURTHER EXPERTISE IN

- jwt
- next-auth
- nodemailer
- figma
- postman
- swagger
- AWS
- daisyUI
- MDB react

INTEGRATION

- stripe
- clouinary
- multer
- razorpay
- socket.io

EDUCATION

BA ENGLISH

CALICUT UNIVERSITY
B2020 - 2023

EXPERIENCE

MERN Stack Intern | Bridgeon Solutions, Calicut | July 2023

- Collaborated with a cross-functional team on a live MERN stack project, following Agile methodology and using Git for code collaboration.
- Enhanced codebase management efficiency by 25% with Git version control.
- Built and managed a scalable MongoDB database, boosting data extraction performance by 30%.

PROJECTS

Project: TalkFlow - Social Media Thread Clone

- **Technologies:** [HTML](#), [Node.js](#), [Express](#), [MongoDB](#), [Git](#), [Next.js 14](#), [Zustand](#), [JWT Authentication](#), [AWS \(deployment\)](#), [Daisy UI](#), [Postman](#)
- Led TalkFlow development, a social media thread clone project using MERN stack technologies.
- Secured unauthorized access by 20% with robust JWT authentication.
- Implemented a secure express-jwt middleware, enhancing system security by 15%.
- Applied coding best practices, improving code maintainability and readability by 25%..
