Hyderabad, India.

SUMMARY

As an aspirant Frontend Developer, I bring a passion for web development and a solid foundation in key technologies and concepts. I am committed to creating interactive and user-friendly web applications. I am ready to take on new challenges and grow as a Frontend Developer.

EXPERIENCE

Apprenticeship as Frontend Developer

Careepedia Edutech Private Limited

09/2023 - 01/2024 Hyderabad

E-Learning Platform

- As a Frontend Developer Apprentice at Careerpedia, I actively contributed to diverse projects, collaborating with a skilled team to drive development forward.
- Applied skills to create dynamic and visually appealing web solutions. Successfully executed responsive design projects, showcasing adaptability across various devices.
- This flexibility helps me expand my technical expertise to a great extent.
- Continuously updating skills and staying abreast of latest web development trends and technologies.

EDUCATION

B.Tech in Electrical and Electronics Engineering

Priyadarshini Institute of Technology and Management

08/2020 - 07/2023 Guntur, Andhra Pradesh, India.

Diploma in Electrical and Electronics Engineering

Sri Venkateswara Government Polytechnic

07/2017 - 06/2020 Tirupati, Andhra Pradesh, India.

TRAINING / COURSES

Analytical Skills (SBTET)

I am proud to hold a certificate in Analytical Skills from Skill Development Center in SV Govt Polytechnic, Tirupati. This certification demonstrates my mastery of critical analytical thinking and problem-solving techniques, key competencies in various professional domains.

APTRANSCO

APTRANSCO is a government owned entity responsible for the transmission of electricity in the state of Andhra Pradesh, India. APTRANSCO plays a crucial role in ensuring the efficient and reliable transmission of electricity from power generating stations to distribution centers.
