Projects

Tourism Website

(umeshp.ccbp.tech)

Developed a responsive website for Tourism Website where users can see a list of cities, detailed information about a cities and trending blogs, contact us info

- Designed page using HTML structure elements, footer elements by using different bootstrap components to show different sections in the website.
- Implemented responsiveness by using Bootstrap grid system and flex classes and CSS box model properties through a mobile-first approach.

Technologies used: HTML, CSS, Bootstrap

Todos Application

(todo33.ccbp.tech)

Developed an application that measuring time he took to complete a given paragraph

- Maintained timer by using APIs set time interval, clear time interval, and Updated timer in the UI dynamically using JavaScript DOM operations for every 1 second.
- Fetched the paragraph from a server asynchronously using fetch GET HTTP API call and displayed it on UI by using JavaScript DOM Operations.
- A displayed time that user took in the UI using JavaScript event listeners once user clicked on submit button, Did form validations for the incomplete paragraph.

Technologies used: HTML, CSS, JavaScript, REST API Calls, Bootstrap

Bookmark Maker

(bookmarkmakerum.ccbp.tech)

Developed online bookstore which shows popular books for given words, a user also can limit the number of books he would like to see

- Fetched the paragraph from a server asynchronously using fetch GET HTTP API call and implemented responsiveness using different Bootstrap classes through the mobile-first approach.
- Implemented user inputs of book words and limits by using Html form elements input, select and maintain that data using JavaScript event listeners.

Technologies used: HTML, CSS, JavaScript, REST API Calls, Bootstrap

Experience

- 2 years experience as Site Supervisor at Dindi Project in Raghava Constructions .
