MAJOR PROJECT

PROJECT TITLE:-RFID Based Petrol Pump Automation System

DESCRIPTION:-We have designed an RFID based petrol pump automation system in which a person can use an RFID card to pay the petrol. When the RFID is swiped, the system would check if it has sufficient balance and then detect the petrol price and update the balance through IOT. These systems do not require any human interaction. IOT Technology is found in many industries like healthcare, Energy, Transportation etc. In this project, the data of the RFID card is sent to the website, through IOT.
