

ANKIT KUMAR

Title: Analyst(A4) / Software Engineer
Location: Uttar Pradesh, India
Languages: Hindi (native), English (fluent)

About Me

A dedicated young professional looking for an opportunity to showcase my skills and deliver my best. Passionate about leveraging technology to create scalable solution, I thrive in dynamic environments that challenge me to continually learn and grow. Experience in digital marketing tools, Web & UI design, Front End Development & Citrix.

Experience Summary

I am trained on Cloud Infrastructure Services like Windows, Linux, PowerShell, Storage and SQL as a part of Capgemini fresher training program. Currently, I am working on Citrix and DevOps. Before joining Capgemini, I have also worked as a Front End freelancer since 2020 and it really helped me to gain more experience and proficiency in the skills. I have experience in the designing and social media marketing field that helped me to know more about business requirements and responsibilities. Currently I am working for a project "Ikano" and working on Citrix & Wintel technologies.

KEY SKILLS:

- **Functional:** Leadership Quality, Presentation Skills, Public Speaking, Strategic and Tactical Planning.
- **Technical:** HTML, CSS, JavaScript, C++ & Java, Citrix, Citrix VDA & core components, Microsoft Azure, MySQL.
