PROJECTS

Academic Major Project: Smart Spying Robot with IR Thermal Vision

Worked on this project especially for military purpose, to protect the borders of the nation from the illegal movement of weapons, peoples, drugs and other valuable things.

Academic Mini Project: line following Robot

A line following Robot is a simple autonomous robot that follows a specific direction based on a particular line, usually a dark line on a light surface.

PERSONAL PROJECTS

* Fully responsive portfolio website deployed and hosted on netlify.

* Coffee-app

- ✓ This “coffee-app” is created by using HTML5 and CSS3 and this webpage is responsive.
- ✓ This is deployed and hosted on netlify.
- ✓ The link is ‘[COFFEE-APP](#)’.

* Converse

- ✓ This “converse” is cloned static webpage, it is created by using HTML5, CSS3.
- ✓ This is deployed and hosted on netlify.
- ✓ The link is ‘[CONVERSE](#)’.
