HELLO,

I am Sakshi, a spirited individual on a journey of self-discovery & creative exploration. I'm a passionate visual communication designer. My journey is a constant exploration & pursuit of growth, both in the design realm & in making the most out of life each day.

I enjoy designing brand identities, packaging, & UI/UX design. The joy of turning imagination into reality drives my creative endeavors. When not immersed in design, you can find me singing, sketching, cooking up new recipes, or simply enjoying the tranquility of serene places.
