PROJECTS

Factors Impact on the Cost Overrun and Delay in Construction Industry Projects

August 2021 – May 2022

- Objectives of the research:- To study and investigate reasons for the increasing frequency of cost overrun and delay in construction projects.
- To analyze the factors affecting time and cost overrun through various indices.
- Future scope of the project:- It helps to understand how to minimize and control the elements responsible for cost overrun and delays, and also helps to complete the project on time and at budget cost as agreed in the agreement.
