PROFILE

Dear Microsoft Support Team,

I hope this finds you well. My name is Het Vyas, and I am writing to inquire about internship opportunities at Microsoft for the upcoming year.

I am currently 16 years old and embarked on a journey in the field of data science last year through an online course with Intellipaat. I am pleased to inform you that I have successfully completed modules in Python, AI and Machine Learning, leaving only SQL to be mastered. As I progress through my studies, I am keen to explore practical applications of my knowledge in a professional environment, and Microsoft seems like an ideal place for such an opportunity.

I believe that an internship at Microsoft would not only provide me with invaluable hands-on experience but also allow me to contribute meaningfully to your esteemed company. I am confident that my dedication, eagerness to learn, and adaptability would make me a valuable asset to your team.

Moreover, I would greatly appreciate any tips or guidance you could offer regarding the internship application process and how to excel in the interview. I am committed to showcasing my skills and abilities effectively to demonstrate my suitability for the role.

Thank you for considering my inquiry. I look forward to hearing from you regarding any available internship opportunities and any advice you can provide. Please let me know if there are any additional steps I need to take to proceed with the application process.

Thank you for your time and consideration.

Warm regards,
