Objective

Dedicated Mechanical Engineer with a strong background in maintenance and troubleshooting. Proven expertise in ensuring optimal equipment functionality, minimizing downtime, and implementing effective preventive measures. Skilled in analyzing technical issues and devising innovative solutions. Proficient in collaborating with cross-functional teams and utilizing advanced tools to enhance operational efficiency. Seeking a challenging role to apply my maintenance acumen and drive continuous improvement within an innovative organization. Committed to delivering reliable and cost-effective maintenance solutions.

Experience

- Reliance Industries Ltd., Patalganga** August 2022 - Present
Mechanical Maintenance Engineer
 - Successfully completed the revival project of Asia's first-ever MX plant with a focus on full safety and zero accidents.
 - Oversaw material management, ensuring availability matched project requirements; procured necessary materials for project completion.
 - Led a team of 7 agency engineers for field operations, showcasing expert leadership and analytical skills in coordinating and supervising project phases to ensure strict adherence to timelines and objectives.
 - Proficient in maintenance of Rotary equipment such as Pumps, Fin Fans, and Compressors, as well as Static Equipment including columns, vessels, tanks, and heaters.
 - Orchestrate routine inspections and implemented preventive maintenance strategies for rotary equipment, resulting in a 15% reduction in maintenance-related disruptions, showcasing analytical prowess and strategic planning skills.
 - Engineered comprehensive daily, weekly, and monthly job planning schedules, optimizing resource allocation and task organization to meet operational goals and project timelines effectively, demonstrating strong analytical and organizational abilities.
 - Collaborated with cross-functional teams to develop and execute maintenance plans, fostering improved communication among technicians, engineers, and production personnel, showcasing adept analytical and collaborative skills in a multidisciplinary environment.
 - Leverage SAP for various tasks including work order management, material availability tracking, specification review, drawing management, material procurement, and budgeting.
 - Present annual budget management sheets in meetings and facilitated JMS approvals for different contractors.
 - Compile and present Monthly Performance Reports (MPRs) for departmental review.
- Shine Projects** May - July 2019
Marketing Internship
 - Enrolled 150 students in 2 months.
- Endurance Technologies Limited, Aurangabad** May - July 2018
Summer Internship
 - Verified the parts by a drawing.
 - Checked the supplied items by the vendors.
 - Presented on drawing and quality checking processes to cross-functional teams, including engineers and other staff.
 - Developed and delivered presentations that clearly communicated complex concepts.
 - Focused upon increasing sales of an ed-tech based online course nearby regional colleges.

Education

- **Sardar Vallabhbhai National Institute of Technology, Surat**
B.Tech - Mechanical Engineering
6.45 CGPA
- **Vasantrao Naik Junior College Of Science**
Higher Secondary
79.08 %
