EXECUTIVE SUMMARY:

As a dedicated and skilled professional, I am actively seeking an engaging opportunity in the Pharmacovigilance (PV) field. My current role as a Safety Science Analyst at Fortrea, employed through Wissen Infotech involves supporting Post-marketing Surveillance. In this capacity, I handle the processing of Individual Case Safety Reports (ICSRs) for Kenvue Consumer products, adhering to KENVUE standard operating procedures (SOPs), internal protocols, and regulatory guidelines to ensure compliance with global safety regulations and corporate standards.

My educational background includes a master's degree in pharmacology from Hillside College of Pharmacy, Bengaluru.

WORK EXPERIENCE:

 **SAFETY SCIENCE ANALYST at Fortrea Drug Development, Bangalore, Karnataka/India. Feb | 2024 – To Present**
(6 months contractual employment)

Key Responsibilities:

- ❖ Triage and classify ICSRs for report type, seriousness, causality, labeling and reporting; prioritize ICSR according to regulatory requirements.
- ❖ Completion of remaining case data entry, including narrative or auto- narrative
- ❖ Completion of risk and quality (label, approval, and manual coding).
- ❖ Clarification of unclear or illegible information from the ICSR sender (i.e. local safety officer [LSO] Or Call Center)
- ❖ Liaise with appropriate stakeholders (e.g. Global Medical Safety Operations Physicians [GMSOP], Fortrea Pharmacovigilance Physicians [PVPs]) to clarify appropriate information required for case Processing.
- ❖ Prioritization of incoming cases for daily workflow management
- ❖ Participation in assigned projects, including inspection/audit readiness activities and inspection and audits as identified, including interviews and provision of requested data.
- ❖ Other activities relating to case processing as appropriate per case, including but not limited to:
 - Single case unblinding, Serious Adverse Event (SAE) reconciliation, deviation memo preparation, deletion/ requests as needed
 - Mentoring/training new hires, if required
 - Responding to Kenvue in a timely manner
 - Involve and support quality improvement trainings and initiatives.
- ❖ **Quality Review:**
 - Perform Quality Review of ICSRs after the data entry.
 - Participate in project teams to improve ICSR quality.
 - Document the quality review results and provide feedback to relevant team members.
 - Identify trends in errors and help identify training needs.
- ❖ **Processes & Procedures:**
 - Comply with SOPs and Work Instructions (WI)
 - Comply with Kenvue guidance documents.
 - Adhere with MedDRA coding dictionary and MedDRA Points to Consider

 **LECTURER at Smt Lalita N. Magadum College of Pharmacy, Ankali. Feb | 2020 – Dec | 2021**

- Excelled as a diligent and dedicated lecturer, specializing in Pharmacognosy and Hospital and Clinical Pharmacy.
- Successfully managed the role of Examination In-charge, ensuring the smooth and efficient execution of examination processes.
- Implemented innovative teaching methods to enhance student engagement and comprehension.
