PERSONAL PROJECTS

Weather Forecasting App (03/2023 - 04/2023)

- Developed a responsive weather forecasting app using HTML, CSS, and JavaScript. Integrated a weather API to provide real-time weather updates and 7-day forecasts. Implemented dynamic backgrounds and a search functionality for location-specific weather data.

Flappy Bird (04/2024 - 04/2024)

- Created a browser-based Flappy Bird game using HTML, CSS, and JavaScript. Developed game mechanics including gravity, collision detection, and score tracking. Implemented responsive design to ensure smooth gameplay across various devices.

Portfolio (05/2024 - 06/2024)

- Developed a responsive and interactive personal portfolio using React.js. Showcased projects, skills, and experience with dynamic components and smooth navigation. Ensured optimal performance and user experience across various devices.
