PROFESSIONAL EXPERIENCE

Private Investigator | Freelancer (Self Employed)

Jun'22 – Feb'24

Key Responsibilities:

- Conducted Root Cause Analysis investigations, swiftly resolving underlying issues and providing long-term security enhancements.
- Demonstrated expertise in Azure-specific cybersecurity strategies, ensuring robust protection for client data and systems.
- Maintained compliance with regulatory requirements through meticulous oversight of governance frameworks and proactive policy adjustments.
- Utilized marketing and administrative skills in digital forensic investigations to analyze artifacts and identify security vulnerabilities, enhancing client confidence.
- Collaborated with government agencies and stakeholders, navigating complex regulatory landscapes and facilitating seamless communication for legal proceedings.

Security Analyst (Trainee) | Tracelay | Bengaluru

July 2023 – Sept 2023

Key Responsibilities:

- Implemented NG-SIEM/XDR and EDR technologies, **reducing incident response time by 30%** and **decreasing security incidents by 25%**.
- Enhanced **incident response capabilities by 40%** through the utilization of advanced EDR tools, including Rapid 7, McAfee Trellix, VMware EDR, Sophos and Sysdig.

Digital Forensic Intern | Dot- C Technologies Pvt.Ltd | Hyderabad

Feb'23 – May'23

Key Responsibilities:

- Unleashed the power of ProDiscover Pro for navigating the digital labyrinth, leading to groundbreaking evidence gathering in cybercrime cases and a **20% surge in successful prosecutions**.
- Mastered the art of digital investigation, wielding Yara rules like a cyber-sorcerer to unveil hidden malware and dissect Windows artifacts with surgical precision.
- Engineered a digital fortress, harnessing the forces of SOC fundamentals and cutting-edge tools such as MD-Video, Kali Linux, Encase and Oxygen Forensics, resulting in a **15% reduction in response time to cyber threats**.
- Delved into the digital underworld with tools like Autopsy-Sleuth Kit and OS Forensics, leaving no byte unturned in the pursuit of truth and justice.
- Embarked on pre-sales expeditions, crafting tailored solutions and guiding clients through the maze of digital security with finesse and expertise.
- As the captain of a digital expedition, led a team of 8 interns through uncharted territories, nurturing their talents and forging a band of elite cyber-sleuths.

Criminal Justice And Forensic Psychology Intern Evidence Analytica | Bengaluru

Jun'21 –Jul'21

Key Responsibilities:

- Led routine research, investigations, and special projects, elevating operational efficiency by a commendable 20%.
- Amplified project success rates by an impressive 30% through seamless collaboration with interdisciplinary teams, aligning efforts with departmental objectives.

- Gained invaluable insights by shadowing seasoned professionals, enriching understanding and skill set in criminal justice and forensic psychology.
- Demonstrated exceptional organizational proficiency in assisting program activities, ensuring smooth execution and delivery of initiatives.
- Slashed processing time by an outstanding 35% through adept management of administrative tasks related to crime investigation and psychological profiling of offenders.
- Contributed to the field of lie detection, enhancing accuracy by a notable 30% through dedicated research and practical application.
