Projects

- Shopping Mall Design**
This is again a super specialized area and does matters very much in making a mall successful. This would include architecture, interior designs, amenities planning, utilities planning, atmospherics design and civil constructions.
- Spider Robot**
The arachno-bot's name originates from the distinct shape of the robot, as its 8 legs resemble a spider's. Each leg consists of a spider-inspired electro-hydraulic soft-actuated joint (S.E.S) which is the core of an arachno-bot.
- Sprinkler Irrigation System**
Water is distributed through a system of pipes, sprayed into air and irrigates in most of the soil type due to wide range of discharge capacity.
