- Has good skills in modifying data, and extracting data in a database.

Certification for completion of Money management course.

- Experience in budgeting, investing, saving and even spending

Projects

Project in autotuning using pwa

The project is about autotuning cars using progressive web application (pwa). This application can be used to measure the motor parameters automatically, including no-load current, stator resistance, rotor resistance, stator inductive reactance, rotor inductive reactance, etc. These parameters are used to calculate the torque estimation and slip compensation.
