WORK EXPERIENCE:

- Intern in **Full stack Web Development .**
- Issued by: Yhills Edutech pvt.ltd
- Internship Period: May 2023 – July 2023

PROJECTS:

Recipe-Blog application [<https://github.com/Rashmiranjan45/Recipe-blog>]

- I developed a dynamic and user-friendly Recipe Blog Application.
- This web platform allows users to not only explore a diverse collection of recipes but also contribute their own culinary creations.
- Designed using Backend-Nodejs,expressjs , Database-MongoDB, frontend-EJS,bootstrap , additional-tools – multer for image handling.

Word Counter [https://github.com/Rashmiranjan45/Word_Counter_Project]

- The Word Counter project is a web application designed to analyze and count the number of words in a given text. It provides a simple and user-friendly interface for users to input text, and it returns the word count along with additional statistics.
- The frontend is designed using ReactJS,HTML,CSS,bootstrap.
- Features are:Word count,character count,preview,touppercase,tolowercase..like that.

Todo List App [https://github.com/Rashmiranjan45/ToDoList_ContextAPI]

- Developed a robust and user-friendly Todo List application leveraging modern web technologies.
- Todo List application using React.js, Tailwind CSS, Context API, and browser local storage to manage and organize tasks efficiently.
- The project focuses on providing a seamless task management experience, incorporating key functionalities such as creating, updating, deleting, and checking off todos.
