Objective

Complex problem-solver with analytical and driven mindset. Dedicated to achieving demanding development objectives according to tight schedules while producing impeccable code.

Experience

Cognizant Technologies Solutions

Nov 2022 - Dec 2023

Software Engineer Trainee

Developed responsive web applications using modern front-end frameworks for improved user experience across multiple devices.

I have worked Facets claim processing system and subscriber/members module

Supported teammates in overcoming technical challenges, sharing knowledge and expertise for mutual growth.

I have worked prutential insurance project as Full stack development gained knowledge and experience

Developed user-friendly applications by incorporating intuitive user interfaces and efficient algorithms.

Cognizant Technology Solutions

Jan 2022 - Aug 2022

Internship

Gained practical experience in various aspects of the field, applying academic knowledge to real-world situations.

I have developed Asp.net full stack development web application

Explored new technologies and approaches to streamline processes.

The Spark Foundation - Empowering Educators

Mar 2021 - Apr 2021

Internship

Streamlined office processes with diligent organization, resulting in improved efficiency.

Maintained database systems to track and analyze operational data.

I done my project Basic Banking System

Front End : HTML,CSS, Javascript, Bootstrap

Back End : PHP

Database : MySQL

Source code GitHub link : <https://github.com/sakthi83/GRIP>

Education

Adhiyamaan College Of Engineering

2022

Bachelor Of Engineering

8.4

Joseph's Matriculation Higher Secondary School

2018

12th

73.1

Vailankanni Matriculation Higher Secondary School

2016

10th

85.6

Skills

Object-Oriented Programming

API Integration

Programming Languages: Java, C#, .Net, Python, C++

HTML and CSS proficiency

Web App Development

JQuery expertise

Microsoft SQL Server

Algorithms and data structures

React js

Javascript

Excellent Communication

Projects

The online Grocery application

The purpose of this project is to give convenience of having all the product prices available on the hand before buying something from market. Thus creating a list of items with updated prices of products, and also calculating the expenses. It will give more productivity to its users in return and save a lot of time for the user

The Library Management System

Library management system is a project which aims in developing a computerized system to maintain all the daily work of library .

This project has many features which are generally not available in normal library management systems like facility of user login and a facility of teachers login .

It also has a facility of admin login through which the admin can monitor the whole system .
