--	-------------

PROJECTS

Interactive Card

<https://pro3bharath.netlify.app/>

(HTML,CSS,JAVASCRIPT,UIUX)

Interactive card maker using The challenge is to create the Interactive Card Details Form, a beautifully designed form component of a banking website's landing page. Users should be able to-Fill in the form and see the card details update in real-time.

Live Weather

<https://probharath.netlify.app/>

(HTML5 , CSS3, JavaScript, Weather API)

Built a website using open weather API where a user can get the live weather data of any location by searching it's name . Used the geo location API to access the user's current location to provide its weather data

Personal Portfolio

<https://bharathmportfolio.netlify.app/>

(HTML5 , CSS3, JavaScript)

Built a fully responsive personal portfolio website to show my skill sets , works , projects and my professional journey in a special and interactive way for Hiring Managers and Recruiters
