06/2017 - 06/2018

Internships

**Electric Vehicle with MATLAB Simulink ,
Abeeyantrix softLab OPC private limited.**

08/2023 - 09/2023

Projects

Hidden camera Detector , Davangere

01/2023 - 07/2020

A hidden camera detector employing an IR sensor functions by emitting infrared light from an IR LED and detecting its reflection using an IR photodiode or phototransistor. When the emitted IR light reflects off camera lenses, it triggers the photodiode or phototransistor, indicating the presence of a hidden camera.

Hand Gesture Controlled robot system , Davangere

10/2023 - 05/2024

A hand gesture-controlled robot system allows users to command a robot's movements and actions through hand motions instead of traditional remote controls. Using sensors and computer vision algorithms, the system interprets gestures such as gestures like waving, pointing, or making specific shapes, translating them into corresponding robot movements.

Declaration

I hereby declare that all the above mentioned particulars are true to the best of my knowledge and belief.
