SUMMARY

As a pursuing BE'25 graduate, I am eager to begin career in the technology industry and utilized skill and knowledge I have gained throughout my studies. I am seeking a challenging role where I can contribute to the development of innovation solutions and continuously learn and grow as a professional. I am particularly interested in opportunities that involves area of technology where I can apply my technical expertise to solve problems and improve user experiences.

SKILLS

Database management
Data Visualization
Analytics

Interpersonal Skill
Research Skill
Problem Solving

Python
Leadership
Communication

PROFESSIONAL EXPERIENCE

Tata

Data Visualisation Internship

July 2024

I am recently participating in Tata's simulation on forage platform and I worked on a project to help a retail client review their revenue data to prepare for the future. I created data visuals, practiced using Tableau and PowerBI to represent information, and built my presentation skill in a real world context.

Prodigy InfoTech

Data Science Intern

June 2024 -July 2024

Developed section plans to risks in decision making while increasing profitability by leveraging data science. Conduct data cleaning, data merging, data quality control and back-ups. Create documentation for each data request or research project.

Eduskills by AICTE

AI-ML Virtual Internship

April 2024-June2024

During this immersive internship program the fascinating world of AI-ML. the hands on experience and practical assignments provided me with a solid foundation in AI-ML technique.

IBase Electrosoft

Machine Learning with Python

July 2021-Oct 2021

As a part of this Internship, I gained greatest Knowledge in 3 months on Python programming with Machine Learning and basic development methods.

EDUCATION

JD College of Engineering and Management

BE'25 in Information Technology

7.92 till 6th Sem

Government Polytechnic, Arvi

Diploma in Computer Science (2019-2022)
