CAREER OBJECTIVE

Seeking a position to apply the knowledge I have earned and explore abilities, skills towards my duties and to excel in field of Software Testing and Game Testing.

WORK EXPERIENCE

Game Tester / QA
GlobalStep

Nov 2023 - Present

- Proficient Test Engineer with 7 months of experience in designing, implementing, and executing test cases and procedures to ensure game software quality. Skilled in identifying bugs and performance issues, and adept at collaborating with cross-functional teams to deliver high-quality products on schedule.
- Conducted thorough testing of game software to identify bugs, performance issues, and inconsistencies.
- Created, implemented, and executed detailed test plans and test cases for various game features and functionalities.
- Collaborated closely with development teams to communicate defects and ensure timely resolution.
- Participated in playtesting sessions to provide feedback on game mechanics, usability, and overall user experience.
- Utilized bug tracking tools to log and manage defects through the complete defect lifecycle.
- Performed regression testing to ensure that previously fixed issues did not reoccur.

PROFESSIONAL TRAINING

- Undergone AZURE Cloud Services Training at Magic Bus, Pune
- Undergone Internship at Soham Computers, Pune

SKILLS SUMMARY

- MANUAL TESTING
- Good Knowledge of Software Development Lifecycle (SDLC) & Software Testing Lifecycle (STLC)

- Hands on knowledge of Generating Test Scenarios and Writing Test Cases.
- Knowledge of Defect Reporting and Complete Defect Lifecycle
- Real time experience of Functional, Integration and System Testing
- Familiar with Smoke Testing, Ad hoc Testing & Regression Testing
- Hands on knowledge of Globalisation Testing & Localisation Testing
- Knowledge of Exploratory Testing and Acceptance Testing

PROJECTS

Optimising Information Leakage in Multi-cloud Storage Services

- Optimising information leakage in multi-cloud storage is a strategy for storing data across multiple cloud storage providers

IOT Based Bio-Metric & RFID Attendance System

- I developed an IoT biometric and RFID attendance system, integrating embedded systems, IoT protocols, databases, backend services, cloud computing, security, APIs, and UI.

EDUCATION

B.E in Information Technology

Jul 2020 - May 2023

Zeal College of Engineering & Research, Narhe

- Secured 90.20%

Diploma in Computer Technology

Jul 2017 - May 2020

Bharati Vidyapeeth's Jawaharlal Nehru Institute of Technology (Polytechnic),
Pune

- Secured 85.89%

SSC

May 2017

Priyadarshini Vidya Mandir

- Secured 78.60%

OTHER ACTIVITIES

- Mobile Photography
- Gaming
- Workout
- Travelling
