EDUCATION

University Of Hyderabad
Master of Computer Applications
Banaras Hindu University
BSc Mathematics (Hons)

July 2020-June 2022
Current CGPA: 8.1/10
July 2017-June 2020
Current CGPA: 7.51/10

WORK EXPERIENCE

Software Developer | *ZopSmart, Bangalore India*

August 2022 – Present

Zopping themes and admin

- Designed and developed 20+ user interface components utilizing React.js, enhancing application performance and user experience.
- Engineered and documented 25+ reusable components and front-end libraries, promoting efficient development and ensuring consistency across projects.
- Created and optimized 10 distinct web pages within the admin dashboard, each tailored to different functionalities and user roles, boosting usability and engagement..
- Implemented responsive design principles, resulting in a 30% increase in mobile user engagement and a 20% boost in overall user satisfaction..
- Crafted 5 custom website themes and layouts aligned with specific brand identities and product categories, enhancing brand recognition and customer engagement.
- Proactively identified and resolved 50+ bugs, ensuring seamless and uninterrupted performance of the admin platform, resulting in a 15% reduction in user-reported issues.
- **Tools And Technologies** : JavaScript, TypeScript, React.js, Netx.js, Styled Components, CSS, Git/GitHub, VS Code.

RLog

- Proficiently develop and currently maintain server-side applications using Node.js, ensuring optimal performance and reliability.
- Optimized API performance, resulting in a 40% reduction in response times, enhancing overall system efficiency and user satisfaction.
- Streamlined API documentation, reducing onboarding time for new developers by 30% and enabling faster integration of third-party services.
- Implemented API versioning strategy, reducing the impact of changes on existing integrations by 50%, ensuring backward compatibility and smooth transitions for clients.
- Expertly harnessed a diverse array of 15+ Node.js modules and libraries to enhance application functionality and responsiveness, leading to a 40% increase in overall efficiency.
- Effectively implemented Loki APIs for the secure and efficient storage of logs, contributing to robust system monitoring and analysis, resulting in a 25% reduction in incident resolution time.
- **Tools And Technologies** : JavaScript, TypeScript, Node.js, MySQL, Loki, Next.js, CSS, Git/GitHub, VS Code.

Software Developer Intern | *ZopSmart, Bangalore India*

February 2022 - August 2022

- Learned to identify and resolve coding issues by employing debugging techniques. Gained confidence in troubleshooting errors and ensuring smooth functionality.

- Proficient in the development and ongoing maintenance of server-side applications using Node.js.
- Building and maintaining RESTful APIs.
- Seamlessly integrating user-facing elements crafted by front-end developers with robust server-side logic.
- **Tools And Technologies** : JavaScript, TypeScript, Node.js, Express.js, MySQL, Git/GitHub, VS Code.

SKILLS

Programming language: JavaScript, TypeScript, NodeJS, Express.js , React.js, HTML/CSS, Mobile Responsive, C++, Core Java, Data Structure

Tools: Git/GitHub, VS Code, IntelliJ IDEA, Eclipse
