EXPERIENCE

- I completed a 45-day internship at Ashutosh Container Freight Station in Mundra Kutch. During this time, I worked on the documentation process, assisted in the day-to-day operations of the CFS, and gained hands-on experience in cargo handling and logistics coordination. I collaborated with the team to ensure timely loading and unloading of containers, contributing to efficient warehouse operations. This practical experience improved my teamwork and knowledge, setting me up for a successful career as a supply chain manager.

PLANNING DEPARTMENT AT ADANI PORT

- As a tower controller at Adani Port, I adeptly manage by road movements, plan yard spacing for upcoming containers, and provide proper allocation of containers. With six months of experience in the field, I possess a keen ability to communicate effectively with RTG operators and ground staff, maintaining order even in high-pressure situations. My commitment to enhancing operational efficiency and implementing best practices underscores my dedication to ensuring the safety and efficacy of port management at Adani Port.
