Your Notes App:

- Developed a comprehensive note-taking application using the MERN stack to efficiently organize and preserve user notes.

Do Blog App:

- Implemented the development of a blogging platform with features for post creation, editing, and deletion, built on the MERN stack.

Weather App:

- Developed a responsive weather application using ReactJS that fetches real-time data from the OpenWeatherMap API. Implemented features for searching weather conditions by city.

News App:

- News app using ReactJS and NewsAPI, categorizes and displays real-time headlines for a customized user experience.
