VISHWAKANT PATEL

PROFILE

With over 14 years of experience in risk consulting, I specialize in eDiscovery, computer forensics, incident response, and fraud investigation. My expertise extends to a range of dedicated forensic tools, including Falcon, EnCase, Paladin, Access Data FTK, Cellebrite UFED, and Oxygen Forensics. Additionally, I am proficient in data processing tools such as NUIX and Intella, as well as forensic analysis tools like Axiom and X-ways. As a team builder, I prioritize client and team needs, consistently delivering punctual solutions. My track record demonstrates my essential role in management and my ability to provide impactful solutions for long-term success.
