WORK EXPERIENCE

Technology Analyst

JAN 2024 - Present

Infosys - Bank of America

- Created the back-end financial systems that made 20 user-friendly applications, seamless to navigate.
- Developed and updated productivity applications, which increased user downloads by 30%.
- Designed a marketing lead MySQL database that categorized and filtered 740 leads from several sources.
- Troubleshooted technical issues (bugs, data integration) and drove issue escalations/resolutions within QA and DEV teams.

Associate Business Analyst

JUNE 2022 - DEC 2023

Infosys - VERIZON

- Ran queries on extensive datasets of 1.5M to evaluate all the functionalities within the modules.
- Created a product with the tech, modelling and data steward teams to create a product, Data Vault (Power BI Dashboard) ensuring data integrity and visibility of the 3rd party data assets.
- Created a set of Key Risk Indicators (KRIs) for the external data from VERIZON, evaluated and implemented it with the help of the PO team along with its successful PIV.
- Experience with CI/CD pipelines, branching strategies, and GIT for code management.
- Managed the GIT and JIRA dashboards for all the onshore and offshore teams for creating and tracking bugs.
- Managed the canvas dashboard for Cisco one of the vendors of VERIZON for all the networking part procurements and increased the data usability and data rationalization, saving -\$500k (annually) .
- Deployed all the user stories to the DEV and SIT environment through SonarQube and managed all the logs in Kubernetes.

Systems Engineer

Feb 2021 - June 2022

Infosys - VERIZON

- Setup, management, support, upgrade, provision, enabling, and disabling the physical network devices (ports) .
- Worked on the development of the network port from scratch as a team and delivered on time to the client using agile methodology.
- Utilized Python scripting and SQL to integrate and automate the data flow seamlessly.
- Single-handedly delivered all the defects and enhancements on time from gathering the database, testing, and releasing.
