

EDUCATION:

Bachelor of Technology (B.Tech) Babu Banarasi Das University (Till now CGPA 8.01) Computer Science specialization in CC&ML	2021-7 th Sem.
Intermediate (CBSE) St. Xavier's School (62%)	2020-2021
High School (CBSE) St. Xavier's School (67%)	2018-2019

EXPERIENCE:

Fresher

SKILLS:

Language: Java, JavaScript, Python
Frontend: HTML, CSS (Bootstrap, MUI, Chakra UI), JavaScript (React.js)
Database: MongoDB, MySQL
Curriculum: Operating System, Computer Networking, DBMS
Version Control: Git / GitHub / GitDesktop , Postman REST API, Vercle, Render
Tool & Framework: NodeJs, ReactJs ,Express.js, Bootstrap, AWS EC2 Instances, AWS VPC, AWS RDS,

TRAINING AND CERTIFICATION:

• Training: Ikigai Technology (AWS Cloud Services)	June 2024-July 2024
• Certification: Python Essentials 1 Course (CISCO Network Academy)	26-july-2024
• Certification: AWS Cloud Practitioner Essentials (AWS)	07-July-2024
• Certification: Web development (Internshala)	May 2022- July 2022

PROJECTS:

BlogAPP:- A Blog Application: Tech Used: MERN - Secure login and registration. - Designed and implemented the frontend with the help of React.js. - Developed backend services and APIs with Node.js and Express.js. - Developed and maintained efficient CRUD (Create, Read, Update, Delete) operations, ensuring robust data integrity and streamlined user interactions. - Created and managed MongoDB schemas for data storage. - Ensured secure authentication with JWT	GitHub Live	June 2024- July 2024
E-COMMERCE:- A E-commerce App: Tech Used: MERN - User Authentication: Implemented secure user login and registration using JWT and OAuth. - Product Management: Enabled CRUD operations for products, including sorting and filtering options - Shopping Cart & Checkout: Developed a robust shopping cart system with real-time updates and a seamless checkout process integrated with payment gateways. - Responsive Design: Ensured a mobile-friendly interface with a responsive design approach using React. - API Integration: Created RESTful APIs for backend operations, facilitating efficient data management and retrieval - Payment Integration: Integrated with popular payment gateways like Stripe/PayPal for seamless and secure transactions.Real-time payment processing with order confirmation..
