## Objective

Entry-level job seekers in pursuit of Java-based roles will find ample opportunities across industries, as Java remains a cornerstone language in software development, promising a dynamic career path rich with learning and growth.

## Skills

**Software Skills:** Java Programming • Core Java • Data Structures and Algorithm • Version Control • Web Development Basics • Version Control • Sql

**Technical Skills:** JDBC Concepts • Basics of servlets and JSP

**Others:** Understanding of Software Development Life Cycle(SDLC)

**Soft Skills:** Communicational Skills • Team Collaboration in Projects • Time Management

## Work Experience

Java Programming |

Topperworld |

Duration (20/12/2023 to 20/01/2024)

Internship Location(Virtual)

Job Description:

- During my tenure as a Java Programming Intern at TopperWorld's Virtual Internship Program (20/12/2023 - 20/01/2024), I spearheaded hands-on Java development tasks in a virtual environment, navigating intricacies of object-oriented programming, JDBC, HTML, CSS, and JavaScript.
- Mastered adaptability skills while overcoming unique challenges, achieving optimization through debugging, and honing proficiency under mentorship. Ready to leverage acquired expertise for impactful contributions in future roles.

## Project

AR Navigation |

Priyadarshini Engineering College |

Duration(1 Month)

Location(Vaniyambadi)

Description:

- Developed an Indoor AR Navigation project using Unreal Engine 5 for our final year project. Created dynamic maps, pathfinding algorithms, and real-time location tracking for an immersive user experience. Our project transforms indoor navigation using advanced augmented reality tech, making it easier for users to navigate and interact.

## Education

Priyadarshini Engineering College (Anna University Affiliated)

BE/CSE (CGPA - 8.46)

Location(Tirupattur, India)

Graduation Date: 06/24

## Coursework

Course Name : Java

Duration(1/2 Month)

- Completed a comprehensive Java course at Besant Technologies, equipping myself with essential skills and Knowledge in Java Programming language.
