Career Objective

My Career Objective is to Excel as a Java Developer ,Leverging Skills in SpringBoot, Databases, Spring Framework, Rest API and Microservices. I Aim to Create Innovative and User-Friendly Java Applications while also Contributing to the Development of Robust Web Based Applications.

Education

Shri Shivaji HighSchool Dongaon

10th SSC - **88.08%**

12th HSC - **85.38%**

Sandip Institute of Technology and
Research Centre Nashik

BE - Computer Engineering

Aggregate **CGPA - 8.54**

2020 - 2024

skills

- Core Java
- SpringBoot(API)
- MySQL
- DevOps & AWS
- 10+DevOps Tools
- Git & Github
- IntelliJ
- VS Code
- Postman

Achievements

- Zensar Employer Training
- GDSC Volunteer (Java Development)
- Participate in Sunhack Hackathon
- Certification in SpringBoot by Scaler

Professional Experience

Technical Engineer

Tech Mahindra | July 2024 - Current

- Assist senior developers in writing, testing, and debugging software code.
- Develop and implement new software features and modules.
- Participate in team meetings, design reviews, and code walk-throughs.

Software Developer(Intern)

Numetry Technology | Jan 2024 - June 2024

- Participate in the design and development of Rest API using SpringBoot
- Perform CRUD operations on data using JPA
- Use Postman for API testing and sending HTTP requests
- Design and execute APIs on Postman, Developed using Java and SpringBoot

Project

CRUD Operation using REST API:-

- User Registration and Authentication
- Email Integration
- RESTful API for external integrations

Blog Application (Backend - SpringBoot):-

- Real Time API Implementation
- Creating CRUD Operations
- Data Management and Performance
