Academic Projects

Title : E- Plumbing Store
Platform : React.js, Spring Boot, MySQL **Duration** : 1 Month
Description : The Online Buying of Plumbing Materials and Spare parts application is developed for the Resellers to buy products in large quantities. An e-plumbing store is an online Wholesale store that specializes in selling plumbing products and supplies. These products can include things like pipes, fittings, valves, faucets, toilets, sinks and other related items. Resellers can browse and purchase these products online, and have them shipped directly to their job site.
