PROFESSIONAL SUMMARY

I am an Autocad Draftsman with 3 years of experience in the field. I have a proven track record of producing high-quality drawings accurately and efficiently-. My best qualities include strong attention to detail, excellent problem solving skills, and the ability to think critically. My biggest achievements include designing complex engineering parts with accuracy and precision. I am also proficient in various Autocad software including Autocad Electrical, Autocad 3D, and Inventor. Furthermore, I have experience in developing detailed assembly instructions for mechanical projects. I am looking to use my skills and knowledge to contribute to a successful team.

2016 - 2018

ITI MECH. DRAUGHTSMAN

GOVT. INDUSTRIAL TRAINNING INSTITUTE , CUTTACK / India, ODISHA

2020 - 2021

PGDCA

KALINGA BIKASH COMPUTERS / INDIA, ODISHA

SKILLS

- Autocad — Expert
- Drafting — Expert
- Geometric Dimensioning and Tolerancing (GD&T) — Expert
- Technical Drawing — Expert
- DEVLOPE IMPORTED MECHANICAL OBJECTS — Expert

EXPERIENCE

2020 - 2021

Draftsman

MICROSTATION PVT. LTD. / India, KENDRAPARA

During my time at MICROSTATION PVT. LTD., I was employed as a Draftsman from August 2020 to September 2021. As a Draftsman, I utilized my technical drawing skills and knowledge of drafting software to assist in the creation of detailed and accurate engineering plans and designs.

- Generated detailed technical drawings for engineering projects
- Collaborated with engineers and architects to ensure accuracy
- Utilized MicroStation software to produce high-quality designs
- Maintained organized files and records of all drawings
- Assisted in the development of new drafting standards
- Conducted quality checks on drawings to ensure adherence to standards

2024 - Now

Apprentice Draftsman mechnical

IFFCO / India, PARADIP

As an Apprentice Draftsman mechanical at IFFCO in India, I gained valuable experience in the field of mechanical drafting. I was able to apply my knowledge and skills in creating detailed technical drawings for various projects and collaborating with engineers to ensure accuracy and efficiency.

- Created detailed technical drawings
- Collaborated with engineers
- Ensured accuracy and efficiency
- Assisted with project planning

- Computer Aided Design (CAD) — Expert
- Mechanical Drawings — Expert
- Conceptual Design — Expert
- Detailing — Expert
- Revit — Expert
- Structural Design — Expert
