

PERSONAL SUMMARY

A proactive, research-based cricket blogger and data-driven analyst with solid knowledge in cricket, who aspires to cover as much cricket as possible. Has the ability to analyse and read the game well. Fluent while using analytical tools and has strong technical skillset. Also, possesses good problem-solving and communication skills. Can work under pressure and pay attention to minute details apart from adapting to changing environments. Keen on bringing in an innovative approach and learning new skills to enhance my capabilities and contributing power to the team.
