

Profile Summary

Aspiring IT graduate with a solid background in computer science and hands-on experience in software development gained from academic assignments. Excited to grow in a fast-paced digital environment and offer creative solutions.

Professional Skills

- Python
- SQL

Soft Skill

- Management Skill
 - Critical Thinking
 - Team Leadership
-

Education

Bachelor of Technology Jerusalem College of Engineering	8.1 CGPA	August 2020 - May 2024
HSC Vidya Vikas Matriculation Higher secondary School	62.8%	June 2019 - April 2020
SSLC Rajavignesh Matriculation School	72.8%	June 2017 - April 2018

Academic Projects

SCLERA RECOGNITION

This project investigates the feasibility of sclera recognition for user identification. Unlike iris recognition, sclera analysis offers potential advantages like increased visibility under varying lighting conditions. We explore methods for extracting unique features from the sclera and evaluate their effectiveness in accurately identifying individuals. The project aims to assess the accuracy, robustness and potential applications of sclera recognition technology.

EXPENSE CONTROL

Worked on a research project that explores the educational setting. The goal of this project is to design an address a variety of tasks like skill gained, tasks completed, and milestone achieved by using Database Management System (DBMS)

Internship

- Login 360 - python

April 2023 - June 2023

Certifications

Programming Basics – Great Learning

Python Project for Beginners – Great Learning

SQL Project for Beginners – Great Learning
