SUMMARY

Experienced in crafting efficient and user-friendly web solutions, I am dedicated to delivering high-quality projects that consistently exceed client expectations. With a keen eye for industry trends and a collaborative mindset, I bring strong problem-solving and communication skills to every project. Eager to contribute my expertise to create impactful digital experiences, especially in PHP development.

SKILLS

- Programming Languages: PHP
- Web Development: HTML5, CSS3, JavaScript
- Content Management Systems: WordPress
- Frameworks: CodeIgniter, Laravel
- Data Management and Integration: RESTful APIs, SQL, MySQL
- Deployment: Experience in deploying projects to live servers
- Version Control: Understanding of GitHub

EXPERIENCE

Developed and maintained dynamic web applications.

Collaborated with cross-functional teams to optimize website functionality.

1. Freelance Web Developer | Nov'24 – Dec'24

- Built features for a dropshipping company's backend system, enabling real-time tracking of product sales using core HTML, CSS, JavaScript, AJAX, and PHP.
- Upgraded a CodeIgniter 3 project to CodeIgniter 4 for Qanvus Technologies, ensuring API functionality and adding new features.
- Designed and developed an admin panel for a website to manage content and functionality effectively.

2. Software Developer, LoanTap Financial Technologies, Pune, India | Jun'24 – Oct'24

- I am working on the loan journey, optimizing and automating loan processes for enhanced user experience.
- Developed and optimized APIs for financial data processing, ensuring robust and secure data transactions.
- Contributed to the design and implementation of new modules to meet specific application requirements.

3. Backend Developer, LIQVD ASIA Pvt. Ltd, Mumbai, India | Oct'23 – Jun'24

- Handled the development and maintenance of Digiboxx applications
- Implemented dynamic and responsive web features to enhance website functionality.
- Led the backend development using PHP and JavaScript.
- Developed a custom Content Management System (CMS) to facilitate seamless content updates and management.

4. Software Design Engineer, Merkle Sokrati, Pune, India | Mar'22 – Aug'23

- Created robust APIs using PHP for seamless data manipulation.
- Implemented data insertion, updating, and deletion features with responsive design using Bootstrap.
- Led backend development, optimizing website speed and performance.
- Collaborated on page enhancements using HTML5, CSS3, and Bootstrap.
