EXPERIENCE

3D moduler

Clover design Group

september 2023-june 2024

Trichy

- Customers can rotate, zoom, and view products from multiple angles, offering a much better understanding of the product's dimensions, details, and features compared to static images.
- This is especially valuable for complex products like furniture, electronics, and home decor, where seeing the product in 3D offers more clarity than traditional photos.

PROJECTS

E-commerce

The website is fully responsive, ensuring that customers have an optimized experience on any device—be it desktop, tablet, or mobile. The layout adapts dynamically to different screen sizes, maintaining a user-friendly interface.
