Professional Experience

Software Tester (Intern)

Salesqueen Software Solutions

Jan 2024 – Jul 2024

- Performed Linux server administration tasks, including installation, configuration, and maintenance of software packages.
- Conducted security testing on web applications to identify vulnerabilities such as XSS, CSRF, and SQL injection.
- Automated test cases using shell scripting to enhance testing efficiency.
- Monitored system performance and identified potential issues in Linux-based environments.
- Documented test cases, reported bugs, and collaborated with developers to resolve issues.
- Ensured system integrity by conducting regular audits and penetration testing.

Skills

- **Operating Systems:** Linux (Ubuntu, CentOS, Red Hat)
- **Testing:** Security Testing, Manual Testing, Automation Testing
- **Tools:** Burp Suite, Selenium, JMeter, Wireshark
- **Programming/Scripting:** Shell Scripting, Python (basic)
- **Other Skills:** Bash Command Line, System Monitoring (top, htop, etc.)

Education

Bachelor of Technology (B.Tech) in Computer Science

Viva University

2020 – 2024

Average CGPA: 6.9

Projects

1. Linux Server Administration and Security

- Performed installation, configuration, and maintenance of Linux software packages.
- Automated security audits and vulnerability assessments in Linux environments.
- Generated detailed reports and logs for system administrators.

2. Web Application Security Testing

- Conducted penetration testing for a client-facing e-commerce platform.
- Identified and resolved critical vulnerabilities, enhancing application security.

Key Achievements

- Successfully managed Linux server operations, ensuring smooth system performance and reliability.
- Identified and mitigated critical vulnerabilities during security testing, preventing potential breaches.
- Earned Linux Fundamentals Certification, ranking in the top 25%, demonstrating proficiency in core Linux concepts.

Interests

- Cybersecurity Research
- Open Source Contribution
- System Administration and Optimization
