

K UDAY KUMAR

Tiruchanur | 9121201220 | udaykumark055@gmail.com

❖ Objective

- Dedicated and results-driven Field Test Engineer trainee with conducting rigorous field tests to ensure product quality and performance. Proven track record of collaborating with cross-functional teams to identify and resolve issues, improve processes, and drive continuous improvement. Seeking to leverage technical expertise and problem-solving skills to contribute to the success of the organization.

❖ Education

- Government Industrial Training Institute, Tirupati 2019-2021
Trade: **Mechanical Fitter**
- Sai Jyothi High School, Tiruchanur 2018-2019
10th

❖ Experience

Product dispatch and finishing specialist | Amara raja Batteries 2021-2022

- Managing Inventory levels of finished batteries and battery components.
- Coordinating with production teams to ensure timely delivery of finished products.
- Monitoring and reporting on production output and quality metrics.
- Ensuring compliance with all relevant safety, quality, and environmental.

Machine Operator | INDO-MIM PVT-LTD 2023

- Operate and monitor machines to ensure they are running efficiently and producing quality products.
- Conduct routine maintenance on machines to prevent breakdowns and reduce downtime.
- Collaborate with production team members to meet production quotas and deadlines,
- Maintain a safe working environment by following safety protocols and procedures.

Graduate Engineer Trainee | NeOLync solutions private Ltd. 2023-present

- Assisted in the execution of field tests on [specific products or systems], following established test procedures and protocols.
- Set up test equipment and instrumentation, ensuring proper configuration and functionality.
- Conducted routine maintenance and calibration of test equipment to ensure accuracy and reliability of test data.
- Recorded test data and observations accurately, maintaining detailed records for analysis and reporting.
- Assisted in troubleshooting efforts to identify and resolve issues encountered during field testing, under the guidance of senior engineers.
- Participated in safety briefings and adhered to health and safety protocols to minimize risks during field testing activities.

❖ Key skills and Strengths

- Proficient in conducting field tests, data analysis, and troubleshooting.
- Strong understanding of mechanical engineering principles and manufacturing processes
- Excellent communication and collaboration skills, with the ability to work effectively in cross-functional teams.
- Detail-oriented and analytical, with a focus on accuracy and quality in all aspects of work,

❖ Computer Literacy

- Well versed with application of Microsoft Word and Internet applications.
