

Thota Venkata Sai

Software Engineer,data analyst

7702988701 ◇ thotavenkatasai16@gmail.com ◇ India ◇ LinkedIn

SUMMARY

Seeking an entry-level position in the field of Information Technology to leverage my technical skills and knowledge.

EDUCATION

B.Tech in Computer Science and Engineering, Dadi Institute of Engineering and Technology, JNTUGV Sep '19 — Aug '23
(GPA: 7.5)
INTERMEDIATE in Science, A M A L College (GPA: 7.23) Jun '17 — May '19
High School in, A M A A High School (GPA: 8.8) Jun '16 — May '19

INTERNSHIPS

Software Engineer Intern May '24 — Jul '24
Mackinlay Chennai, India

- Developed a website name "HR CONNECTPRO".It is useful for both HR'S and job seekers.
- In this I developed so many features like chatbot AI, resume generator ,AI interview,Coding platform , Applying to jobs and Tracking of jobs and we easily accessible all items.
- Technologies:python, HTML, CSS, Java script, Django, Artificial Intelligence, LLM,Falsk

Java Developer Intern Mar '24 — Apr '24
Codsoft Technologies

- Developed a Restaurant management system website.Enables restaurant owners to automate their business flow by hosting this website and have different interfaces for customers.
- Customers can place orders and view order status. Incorporated email functionality to get notifications about order status.Involved in the Design
- Development
- Testing of this application.
- Technologies: Java,HTML,CSS,JS

PROJECTS

Hazard Identification and Detection Using Machine Learning

- we design a new classification system to analyze and detect malicious web pages through classifier.
- In this our project identifies a link or URL which is safe or unsafe
- Technologies: python, HTML, CSS, Java script, React, SQL, Scikit learn, numpy, matlab, Machine learning Algorithms

Medical Inventory Optimization

- In this project we design a Medical ensuring that every healthcare organization, regardless of its size or location, has a robust and efficient system in place for managing essential medical supplies.
- it can maintain all the medical records
- Technologies: java, MY SQL, Data visualization, Data sets, Testing, EXCEL

SKILLS

Programming Languages: Python, Java, SQL, JavaScript, HTML, CSS

Software Development: Object-Oriented Programming, Software Engineering, SDLC

Data Management: Database Management Systems, Data Structures and Algorithms, SQL

Testing and Quality Assurance: Testing methods like agile and manual Testing, QA Methodologies and Tools

Tools and Libraries: Numpy, pycharm, matlab, Git, Visual Studio

CERTIFICATIONS

PYTHON Jan '01

JAVA Jan '01

HTML & CSS Jan '01

SQL Jan '01

Manual Testing Jan '01
