CAREER OBJECTIVE

As a MERN stack developer proficient in HTML ,CSS, Javascript, React.js, MongoDB.js and MYSQL focused on developing innovative web application.Dedicated to enhancing user experience and continuous learning new technology to stay current with industry trends.

EDUCATION

Bachelor of Engineering in computer Science 2020-2024
Bharathiyar Institute of Engineering
GPA -8.1

SKILLS

- **Technical skills :** HTML CSS Javascript React.js Mysql.
- **Soft skills :** Time management Team work Communication

CERTIFICATES

Full stack with python programming Oct 3 2023
Front end : HTML CSS Javascript
Back end : React.js Mongoddb.js Mysql
Institution : GUVI Geek Networks
Certificate ID : dgk80620k9w1886773

PROJECT

Crop yield prediction Data Analytics in Indian Agriculture using Machine learning

- We propose to developing is the effective technique to predict crop productivity in different climate condition assist farmer and other stackholders in accurate decision making in terms of agronomy and crop choose.We used DNN , Multilayer perception and linear regression algorithm. This AI based smart agriculture is really efficient.Water is requiring for proper growth of crop.
