## Profile

---

Enthusiastic Data Analyst with a strong foundation in data analysis, SQL, and data visualization tools like Tableau and Power BI. Proficient in Excel and Python for data cleaning and statistical analysis. Passionate about solving business problems through data-driven insights and continuous learning.

## Education

---

- B.E**    **KLS Gogte Institute of Technology**, Electronics and Communication    Dec 2020 – Nov 2024
- CGPA: 7.01
  - **Coursework:** Network engineering, Embedded system design, Network analysis

## Experience

---

- Feynn Labs**, AI/ML Intern    Jamshedpur, Jharkhand  
Jan 2025 – Mar 2025
- **Product Design:** Conceptualized an affordable, compact electric vehicle for urban commuters in India, focusing on sustainability, fast-charging, and smart features.
  - **Market Segmentation:** Analyzed customer segments based on demographics, geography, and behavior to target middle-class, Eco-conscious consumers in urban cities.
  - **McDonald's Case Study:** Replicated McDonald's operations using Python, analyzing customer preferences and sales data to optimize menu and staffing

## Projects

---

- Parking System for Restaurants in Urban Areas**    2023 - 2024
- Developed a Smart Parking System for urban restaurants with real-time tracking, reservations, and payment integration, optimizing parking usage, reducing congestion, and enhancing customer convenience.
  - **Tools Used:** React JS, Python, C, Node JS, Mongo DB
  - **Hardware Used:** Raspberry Pi 3 Model B

## Technologies

---

**Languages:** C++, C, Java, Python, Jupyter, MySQL  
**Technologies:** MATLAB, Pandas, Numpy, Matplotlib

## Achievement

---

- Best industry project in Project EXPO-2024 organized by Gogte Institute of Technology

## Hobbies

---

- Gaming
- Website Discovery
- Digital Tool Enthusiast
