---

## PROFESSIONAL SUMMARY

---

A Motivated Electronics and Communication Engineering student with a strong foundation in Embedded system, circuit designing. Proficient in using software tools. Eager to apply theoretical knowledge to practical applications and contribute to innovative engineering solutions.

---

## SKILLS:

---

### Technical skills

- **Embedded system & IOT** :Arduino IDE, Keil MicroVision
- **Signal Processing:** MATLAB
- **Programming Languages:** Basics in C, Python, Java, Embedded C, Verilog

### Soft Skills

- Communication
- Teamwork
- Time Management

---

## EDUCATION QUALIFICATION:

---

**Bachelor of Engineering in ECE** | [Vemana Institute of Technology] | [2025]

**Intermediate MPC** | [Lalitha junior college,Guntur] | [2021]

**SSC** | [Bashyam School,Pulivendula] | [2019]

---

## PROJECTS:

### **Driver Anti Sleep Glasses**

It specially designed goggles are to be worn as regular spectacles while driving.

---

## CERTIFICATES:

---

Embedded Systems

MATLAB based Workshop on OFDM Fundamentals

---

## INTERNSHIP:

---

Completed an **Embedded System** Internship at **Indian Institute of Embedded Systems(IIES)** (Duration- 1 Month), where I gained hands-on experience in designing and programming microcontrollers, interfacing peripherals, and working with real-time operating systems.

---

## PERSONALITY TRAITS:

---

Strong team player with leadership and communication skills.

Adaptable, quick learner, Creative.
