ABOUT ME

Ready to add a splash of magic to your visuals? With 5.5 years of experience up my sleeve, I'm your go-to motion graphics maestro! From crafting eye-catching animations to slicing and dicing footage with finesse, I've got you covered. Whether you need a touch of cinematographic brilliance, some sound magic, or a dash of graphic genius, consider it done! And hey, I even know my way around 3D software—though sometimes I swear it feels like I'm wrangling digital origami. Let's turn your ideas into pixel-perfect reality, with a sprinkle of humor to keep things lively along the way! ???
