

Profile Snapshot

- Aspiring software engineer with strong Java and web development skills.
- Experienced with Spring Boot, REST APIs, SQL, and Git.
- Quick learner, eager to grow in a software development role.
- Enthusiast with experience using AI tools like ChatGPT and Gemini to automate tasks and enhance productivity in tech workflows.

Education

- **Bachelor of Engineering (BE-CSE)**
Savitribai Phule Pune University (2024)
- **Higher Secondary Certificate(HSC)**
Vidya Pratisthan Baramati (2020)
- **Secondary School Certificate(SSC)**
Shree Keshavraaj Vidyalaya Daskhed (2018)

Internship

Software Developer Intern

Greateway Software Pvt.Ltd

Duration: Jan 2024 – Present

- Building web applications and APIs using Java, Spring Boot, Hibernate, and MySQL.
- Working with Spring Boot, REST APIs, SQL, Git, Java, Junit , and collaborating with UI/UX teams.
- Involved in database design and management using MySQL.

Technical Skills

- **Programming Languages:** Java
- **Database:** SQL, MySQL
- **Frameworks:** Spring, Spring Boot, Hibernate, REST APIs
- **Tools:** Git ,Eclipse IDE, VS Code, MySQL Workbench
- **Testing Tools:** Postman

Projects

Online Food Order System (Java, Spring Boot, Hibernate, MySQL, Postman) (Duration – 6 Months)

- Developed a web-based application for online food ordering, providing an easy-to-use platform for both admins and customers.
- Built a robust, efficient, and scalable backend using Java and Spring Boot.
- Connected to a MySQL database using Hibernate for secure and reliable data handling.
- Tested and validated REST APIs with Postman to ensure smooth client-server communication.
- Ensured the system's scalability and performance to handle multiple users simultaneously.

Digital Customer On-boarding (Java, Spring Boot, Hibernate, MySQL, REST APIs, Postman) (Duration – 3 Months)

- Built a digitized system for banking customer on-boarding, enabling secure online account creation for individuals and corporate clients.
- Used Java and Spring Boot for backend logic and integrated MySQL for data storage.
- Developed REST APIs to allow smooth interaction between frontend and backend, with API testing performed via Postman.

Certifications

Full Stack Java Development Training Certification

Fusion Software Institute ,Pune
