- Java - Web framework Spring Boot
- Angular
- MYSQL.

PROJECT EXPERIENCE

Project Title : File Security with Database System.

Project description : The security system is quickly becoming mandatory feature of the data storage systems. For the security purpose we are always dependent on the cryptography techniques. These techniques take the performance costs for the complete system. So we have proposed the File Security . It is based on the on-demand computing system concept, because of the performance issues. It is a greates comeback for the system performance. The concept is used because, we are not always in need the secure the files, but the selected one only.

WORK EXPERIENCE

I worked in the Java web developer for six months in Coimbatore.

Declaration
