Internship at **Incture Technologies Pvt. Ltd** with role as
(July, 2021 – September, 2021)

- Quality Assurance Analyst
(QA of Website, LinkedIn, Twitter Page, ChatGen.ai, SAP Store)
- Lead capture from ChatGen (Website chatbot)
- Data Analyst
(Google Analytics, ChatGen.ai, making comparative dashboards)

Recommendations as received on LinkedIn:

<https://www.linkedin.com/in/nancy-poulose-9438a11a1/>

1.

"Nancy worked with me as an intern in the marketing team at Incture. During her course, she worked on quality analysis of the web pages, created dashboards and reports on analytical data from google analytics, ChatGen (website chatbot), and kept track of the incoming leads and queries. Her work was efficient and up to the mark. Her knowledge of data and quality analysis is commendable. She is a quick learner and was eager to learn various aspects of digital marketing and its tools. Overall, it was great having Nancy on our team! "

- **Krati Jaiswal**
(7th October, 2021)
(Branding Executive at Incture, Former Co-Founder & Director of Webboxstudios)

2.

"Nancy helped us with quality analysis of our website and was meticulous in the way she created test cases and test plans. Also, helped us prepare the Marketing Dashboard Q1, 2021. She demonstrated analytical skills to extract data from different channel performance and put it together in a dashboard format. This has helped us to evaluate our performance in Q1."

- **Praphul Ram**

(Marketing Manager at Incture Technologies (Brand and Digital Marketing, 2nd Nov 2021)

Projects Undertaken

1) Exploratory Data Analysis on Student Alcoholism (Python)

(Individual Project)

Thorough **data cleaning** and **data visualization** was done

Uploaded YouTube Videos explaining codes, statistical interpretation and inferences:

<https://www.youtube.com/watch?v=0Y00i-gszRw>

2) EDA and Prediction Model of IPL Dataset (Python)

(Group Project)

Group Leader, in depth data cleaning and Data visualization of dataset, Prediction model to find winning team, Presentation of project

3) Hackathon 2020 organized by DLTK.ai (Python with DLTK packages)

(Group Project)

Group Leader, Prediction Model and EDA for Heart Diseases, Data visualization, Prediction model, Project presentation Quality Assurance

Certifications:

1. Inference Statistics from Coursera (Duke University)
2. Probability and Distribution Theory from Coursera (Higher School of Economics, National Research University)
3. Data Cleaning (Kaggle)
4. Google Cloud Essentials Badge
5. AWS Academy Cloud Foundation Course
6. Deep Learning Tool Kit Practioner Certificate

Research Areas:

1. Gait based Human recognition using Gait Entropy Imaging using Deep Learning
2. Text Classification for Spam Email Detection using BERT

IT Skills:

- **Languages known:** Python, R, SQL, basics of C
- **Frameworks used:** Jupyter Notebook, Jupyter Lab, Google Colab, PyCharm
- **Libraries used:**
 1. Pandas, NumPy, Seaborn, Matplotlib,
 2. Sklearn, TensorFlow, Keras
 3. Dash, Plotly,
 4. PIL, OpenCV, (Image Processing)
 5. NLTK, SpaCy, iNLTK (Indian Regional Languages)
 6. BeautifulSoup
- **Others:** Google Cloud, AWS Cloud, MS Excel, Tableau, Latex

Top Skills:

- Strong communication skills
- Public Speaking
- Leadership skills
- Team player
- Critical Analysis and thinking
- Problem Solving
- Adaptability
- Quick, eager and coachable learner

Hobbies:

- Non – fiction reading
- Journal writing
- Baking

Languages Known:

- English (Professional),
- Hindi (Professional),
- Bengali

Extra - Curricular Activities:

1. Basketball gold medal winner (College)
2. Basketball Junior Team in School
