Objective

I would always prepare myself for contributing in the progress of organization. The development of the company would be my prime area of interest. It would help me to create a good impression among my companions. I would use my ideology while working. So, I will come to know the strength of my skills.

Network Engineer with 9+ years of experience in network design, escalation support, network administration, and systems administration. Skilled in delivering technical support, managing network operations, and maintaining enterprise-wide area networks across multi-platform and high uptime Data Center environments.

Professional Experience

BS INFOTECH

Network Engineer, September 2012 – 2019

- Managed the design, installation, and management of organization-wide local area network, wide area network, network segment, and internet system
- Optimize network performance and reliability by maintaining hardware and software, analyzing technical issues, and ensuring availability to system users
- Implement effective security measures to protect data, software, and hardware
- Execute the maintenance window changes for multiple locations, performing troubleshooting of routing and switching issues

ALOK IMPEX PVT.LTD.

Network Engineer, November 2020 – Present

- Applied routing changes which improved network/system performance.
- Maintained seamless end-to-end communication by delivering support for Video Conferencing System (Cisco VCS/TMS)
