

SIDDHARTH RAM KASHYAP

PROFILE

A creative guy with a keen observational eye. Since I've been working with theater groups as an actor as well as an assistant director for last 6 years now, I happen to be good at performing well in one straight cut. Be it Acting, Video Editing, Writing or Directing several content. And since I've worked in the corporate environment as well, I am quite used to adhere to the deadlines. Being enthusiast has helped me to learn so many new things that now I really do not hesitate jumping into something really new and learning it thoroughly. I believe in the sign "+", because all we have to do with life revolves around this sign. I'd like to explain this belief of mine sometime in person. So, I'd rather wait for the opportunity to be able to represent my ideologies in front of you and your organization.
