PROJECTS

The International Student's Guide

It is a web-based application for international students to get to know about each state in India before choosing their university. It provides information about the top universities in each state and also the crime statistics since some places might not be suitable for women to live. It even shows the tourist spots and different kinds of cuisines in each state.

Online banking System Using Cued click-point Authentication

It is a web-based banking application that uses cued click-point technique for user-authentication where the user is authorized access by clicking on the password set previously from the uploaded pictures.

ACCOMPLISHMENTS

- Finalist in Smart India Hackathon 2020
- Hosted and Organized multiple intra and inter college events
- Presented various technical power-point presentations in college events
- Participated in several speech, debate and group discussion events.
